

## MATHEMATICS

As mathematicians, we will begin the term with place value. Within this, we will be looking at numbers up to 10,000 focusing on representing and partitioning numbers. We will then move into rounding, addition and subtraction. We will be putting a lot of focus on times tables so it would help to practise these as much as possible at home.

## ENGLISH

As authors, our book will be focusing on our topic, 'same, same but different' and we will be exploring Sharon Dennis Wyeth's 'Something beautiful'. We will be using grammar skills practised to write a narrative focusing on character description and a formal persuasive letter.

## READING

As readers, we will be exploring many different short texts and answering retrieval and inference style questions on it. This will help develop their prediction as well as their reasoning skills to develop their answers and opinions.

# Around the world in 80 days

Year 4 - Term 1

## PE

As athletes, we will have the sports coaches to help deliver a range of different sport, including many different multi-sports such as basketball. PE day this term is on a **Monday** so children will need to come in their PE uniform.

## SCIENCE

As scientists, we will be looking at the different ways we can classify living things. This will also include exploring the different habitats of these animals.

## GEOGRAPHY

As geographers, we will be exploring different countries across the globe. We will be looking at how biomes differ within these different countries and how this is affected dependent on their distance from the equator.

## EXTRA-CURRICULAR

Forest school will be on a Thursday morning this term. Children will need to wear their forest school kit (including waterproofs if possible) and bring their uniform to change into.
